* D. PERSON NO. 11 T. T.

(OR VILLAINS) IN NEW YORK WHO STIRRED UP CANANEA.

Ferhaps the Name (or Names) Will Be Made Public Later-However, the Plot Miscarried and Cananea Is Nothing but Peace, Copper and Dividends To-day.

Col. W. C. Greene, president of the Greene Consolidated Copper Company, returned from Cananea, Mexico, yesterday. Col. Greene immediately issued a statement to the stockholders of the company accusing some person or persons of having furpished the money which caused the recent note in Cananea. It was intimated by an official of the company that the name or names of the villain or villains to whom the Colonel refers might be made public shortly. A meeting of the directors of the company will be held to-morrow. ol. Greene's statement is in part as

The money for fomenting and inciting the riots was furnished from New York and was part of a deliberate attempt to depreciate, by the destruction of its property, the securities of the company, and has been supplemented by the usual crop of malicious and misleading rumors. the attempt to destroy the property miscarried, and conditions are again normal.

Quiet has been completely restored at Cananea and the Mexican Government has established a permanent post and will maintain a strong garrison at Cananea, thereby insuring absolute guarantee against any repurrence of labor troubles.

During the last few months extensive and very valuable discoveries of copper have been made to the southeast of the Cobre Grande

Col Greene announced that the company had acquired \$2,000,000 worth of stock, in cash par \$10 a share, in a new company taking over the new property, capitalists from Duluth and Montana also taking hold with a total issue of 1,000,000 shares. The new company is the Cananea Central Copper Company.

The statement then goes on to say:

The price of copper has held steady and there is every indication that at least the present price will be maintained for the coming year. The average price received for our June output of copper was 18.59 cents a pound, while our July output was sold at 28.52 cents a pound. Our production is sold up to August 1.

Notwithstanding the persistent attempts that have been made to destroy the confidence of stockholders our list is continually Ancreasing. Dividend No. 18, of \$400,000, making an

aggregate of \$4,994,400 paid in dividends to date, was paid June 30, and a directors' meeting has been called for August 15, at which date action will be taken on dividend No. 19. The current net earnings of the company are more than sufficient to take gare of present dividends now being paid, and there is no reason to anticipate that any reduction will be made in dividend payments for the coming year.

GREAT YEAR FOR THE WORKERS.

Figures of the Bureau of Labor Show That They Were Very Well Off in 1905.

WASHINGTON, Aug. 13.-The Bureau of Labor has figured out that the American workingman in the manufacturing industries was better off in 1905 than the year before. In a bulletin issued to-day the Commissioner of Labor discusses wages and hours of labor in manufacturing industries and retail prices of food. He says that the average hour wages in the principal manufacturing and mechanical industries was 1.6 per cent. higher in 1905 than in 1904; that in 1905 the purchasing power of hourly and weekly wages was per cent. higher than in 1904; that the retail prices of food were slightly higher in 1905 than in the previous year, but this disadwantage was more than offset by the inprease in the purchasing power of his wages, which was 1 per cent. greater in 1905 than

In 1904.
"The average wages per hour in 1905,"
the bulletin says, "were 18.9 per cent. higher
than the average for the ten year period
from 1890 to 1899, inclusive. The number of employees was 33.6 per cent. greater and the average hours of labor per week were 4.1 per cent. lower. The average earnings per week in 1905 were 14 per cent. higher than the everage earnings per week during the ten years from 1890 to 1899. The aggregate weekly earnings of all employees—that is, the total amount of the payrolls—were 52.3 per cent. higher in 1905 than the average during the ten year period named.

The purchasing power of an hour's wages was greater in 1905 than in any other year was greater in 1995 than in any other year covered by this investigation, being 7.7 per cent. greater than in 1894, the year of lowest wages, and 1.3 per cent. greater than in 1896, the year of lowest retail prices."

INTERBOROUGH EARNINGS GROW.

Subway Made \$500,000 for the June Quarter and Elevated Lines \$230,000. Gross earnings of the subway and elevated lines for the June quarter show an increase of \$741,321 compared with last year, indicating a gain of nearly 15,000,000 in the number of passengers carried by the two systems. Of this increase \$509,423 was shown by the subway and \$321,897 by the ov erhead lines. After the payment of fixed charges, including the guaranteed dividends of 7 per cent. on the Manhattan stock, the combined surplus of the two roads amounted to \$986.649.

As only \$787,500 is required to pay the quarterly interest on the new collateral trust bonds, the balance of \$202,000 will be applicable to dividends on the new preferred stock. ock. Until the results of the surface lines for

the fune quarter are published it will be impossible to tell what the Interborough-Metropolitan earned on its new 5 per cent. cumulative preferred stock. All surplus earnings of the surface lines, together with the \$202,000 surplus earned by the subway and elevated lines, will be applicable to dividends on the preferred shares.

Federal Copper Company Attached. Deputy Sheriff Burnes received an attachment yesterday from Brooklyn, which was granted by Justice Dickey of the Supreme Court, against the Federal Copper Company in favor of Harry E. Sloan for \$14,000 on an assigned claim, it is said, of Leo C. Dessar. The Sheriff attached \$12,500 in the hands of Mr. Dessar at 290 Broadway. Mr. Dessar was formerly president of the company. The company was incorporated in 1900 with a capital stock of \$500,000 and bonds of \$150,000 were afterward issued. The company was located at El Paso, Tex., where it has a plant for smelting.

Old Havemeyer House a Bank.

The Bankers' Trust Company has leased the ground floor and basement of the old Henry O. Havemeyer residence, at the northeast corner of Fifth avenue and Thirty-sixth street, for an uptown branch. The rental is understood to be about \$40,000 Separation of the privilege of an eleven year renewal.
Separation of the privilege of an eleven year renewal. Benjamin Altman is the present owner of the house. The lease was negotiated by George R. Read & Co. and John N. Golding.

Gold Imports Again.

Gold to the amount of \$2,125,000 was engaged yesterday in London for import to New York. The consignee of \$2,000,000, it is reported, was the Hanover National Bank, the Van Norden Trust Company taking the rest. Reports, which lacked confirmation were that \$1,000,000 for New: York had been picked up in London. The god spoken for come from South Africa. GOSSIP OF WALL STREET.

Ice opened a fraction above Saturday's closing and on sales of but 500 shares advanced a point more to 73, another new high record. Some one then unexpectedly sold 500 shares, described by one of the bulletins as "real stock," and the price fell off a full from this shock, and soon the quotation was again tempting agitators for the rights of the plain people.

"Harriman moves in a higher world," declared an enthusiastic trader. "William Nelson Cromweli told the exact truth when he said so. He's a planet all by himself, and Union and Southern Pacific are satellites of the first order. They're swinging high now, but they're going higher and higher, and it won't be long before they're out of the reach of the ordinary trader." "That South-ern Pacific satellite," was the rejoinder of a bear, "isn't soaring as high as when Keene was the planet guiding its movements. You all thought it entitled to a permanent place in the higher heavens then. It turned out to be a comet. Watch out that if it comes to earth presently it don't leave you up in the air, for Harriman, you know, doesn't loom up any bigger in the stock market to-day than Keene did four years ago."

The highest point reached by Southern Pacific during the day was 79%, only 1% points below the high of the Keene movement. As on many days of late, speculation in it was remarkably keen and active. The advance forced much covering by shorts, but the places of those closed out were taken by others who insist that the stock has fully discounted a 4 per cent. dividend declaration and declare that, all reports to the contrary notwithstanding, there remains a betting chance that there will be no dividend at all. Many in the Street are willing to admit the force of the former proposition, but there are few who believe that the movement in the stock has not had enough inside cooperation to assure the long deferred declaration. Action at present appears to be the proper market position for the stock on a 4 per cent dividend basis. There are a few bulls who believe it should sell on a parity with Atchison and there are a few bears who place it alongside of Katy preferred. More conservative estimates grant it a price between 75 and 80 on a 4 per cent. basis

The return of James J. Hill had been expected so steadily since the return of other financiers from abroad and announcements of his coming had so often turned out premature that the Street had given up looking for him and announcements were made that he had started on a trip toward the Pacific Coast. As usual, Mr. Hill turned up when he was least expected. The Hill stocks, Great Northern and Northern Pacific were strong on the news of his arrival and strength was also imparted to the Steel issues on the belief that his arrival means a practical conclusion of the Great Northern-United States Steel ore deal. There was nothing in the developaction was any nearer consummation than for several months, but the financial community considers the deal of such extraordi nary importance that it can't resist a feeling that its conclusion will impart an extraordi nary impetus to the market. Pending its conclusion, brokers said, speculation in the Steel shares is sure to be heavy.

The report current in the street regarding dividend action in the Harriman stocks had it that the Union Pacific dividend would be semi-annual declaration at 3 per cent. with an extra declaration of 1 per cent. for the year, and that the Southern Pacific divi-dend would be declared this week. If the first report turns out to be correct it will no doubt prove a disappointment, for the be lief in a fixed 7 per cent. basis for the stock has become well settled within the last few weeks. Any implication that the stock might not receive 7 per cent. in the future, brokers said, would do much to destroy the Southern Pacific the report was probably wrong. The executive committee meet this week and it has the power to declare the dividend, but it will take such action only in case it seems certain that a quorum will not be present at the meeting next week

A tip that Steel common would be put on a per cent. basis had been expected ever since the dividends at an annual rate of 2 per cent. were declared. It made its appearance yesterday, but attracted little attention.

who had taken positions to

Brooklyn Rapid Transit in the belief that the stock would swing upward or down-ward as the decision turned out favorable or unfavorable to the company scrambled to get in at the opening yesterday. Though none of the opening orders was large, there were so many covering orders from bulls and selling orders from bears that they were all bunched together on the tape as a single transaction of 2,000 shares at 76%@76%. The quotation was 1½ to 1½ points below Saturday's closing. After the opening the price dropped to 76, rallied to 77%, fell off again to 75% and closed at 76, a net loss of two points. Bulls endeavored to justify a higher price by insisting that the higher courts had ally passed on the 10 cent fare questio and that Justice Gaynor had not decided i directly. Bears contended that Justice Gaynor's decision and the action of the comoany's employees on Sunday assured carry ing the case to the highest court. In case the Court of Appeals, they said, coincider with Justice Gaynor's opinion, it will mean a loss of \$80,000 to \$100,000 in the company's net earnings in the summer months. And in any event, they insisted, the company has brought upon itself an ill will that will result in greatly reduced receipts during the remainder of the current season.

Transactions in Chicago and Northwestern ordinary dealings in that stock being com-pared with others on the list, were relatively the largest of the day. There were some we informed railroad men who considered there also of the greatest significance. It Nanderbit buying, some of them said. Union Pacific buying, said others. Competitive buying, declared the majority.

It was recalled that quiet accumulation of Northwestern stock by men now identified with Rock Island very nearly resulted in the acquisition of control by them not many years ago. They had conducted their operations so skilfully that only the voting of 7 per cent. honds, the voting power of which the Rock Island men did not know, upset their plans. t was also recalled that at the time of the reorganization of the Union Pacific the proposition of acquiring that road was submitted by the Vanderbilts to President Hughitt of the Northwestern and that they were restrained from taking large blocks of Union Pacific stock only by Mr. Hughitt's emphatic disappeoval of the project. Mr. Hughitt's comments on the value of the property were pointed and vigorous in their disparagement. It is not to be believed, railroad men said, that they have been forgotten by the partie now in control of Union Pacific, and there are many evidences, they declared, that these men both appreciate the value of North-western to them as a business proposition and appreciate the satisfaction derivable from the purchase by the once derided road of the road whose head expressed the derision.

That Union Pacific has for some time been buying Northwestern quietly is believed, particularly by those railroad men who are still puzzled by the uses of the large sums received by the Union Pacific from the sale of large blocks of Great Northern and Northern Pacific and from borrowings during the year. That a considerable portion of the \$10,000,000 is accounted for by purchases of Wells Fargo stock is generally believed, but the question of the disposition of the remainder permits no more plausible solution than that it has gone into Northwestern. Into this road likewise, it is pointed out, the Union Pacific, having been defeated for control of Illinois Central, might profitably put money derivable from the sale of futile acquisitions of the stock of that road. Liquidation, represented by a decline in Illinois Central stock, has been going on

steadily since Mr. Fish's victory. Finally it was declared that the Vander-

bilts, having narrowly escaped defeat in Northwestern once, were on their guard against a repetition of the experience, were uite alive to the situation and were both abundantly able to protect themselves and were protecting themselves. On transactions aggregating 26,000 shares Northwestern advanced 31/2 points yesterday, closing at 212

COPPER, TIN AND LEAD.

Heavy Demands for Electrolytic Copper

From German Engineering Trades. Important sales of electrolytic copper to German cable makers and electrical apparatus makers were made in yesterday's market. Prices were 18%c. net, New York delivery. sold for shipment to Birmingham, England. The home market is active in casting copper, and two important sales of lake were made yesterday for account of New England con-Prices are firm and unchanged Lake, for September and October, 18%@18%c. electrolytic, 181/2018%c., for Sep tember and October. Casting copper, best grades, is 18% @18%c., thirty days. A notable feature of the trade is the increasing business noted by jobbers in cask lots of casting copper. Many brass founders who do not wish to tie up under close delivery contracts with the large producers are buying liberally in lots of 5,000 to 15,000 pounds from the jobbers. A number of jobbers are better stocked with casting copper than most of the large producers, who are sold right up to the last lot of metal available for August shipment. The London market for copper is firming

up. Standard copper warrants, spot, are £83 15s.; three months, £83 5s.
Pig tin, spot, is 40%@41c. London quotes, spot, £182 10s.; £182 5s. The position in the foreign markets exhibits that the backwardation is insignificant. A large importer gives it for his opinion that the buil clique in London has forced the market into a position where they can control it to their inclinations for some time. Domestic stocks are small and demands are large.

Pig lead bin good demand at 5.85@5.85c.

THE COTTON MARKET.

Small Net Decline-Livernool Weaker Than

Expected-Shorts Cover. Cotton took a downward course, influenced by unexpectedly weak cables from Liverpool, where leading American interests were said to be selling heavily. Then, too, Price brokers sold here and room traders attacked the market. The South, Wall Street and Liverpool sent selling orders and for a time the market lacked support. The receipts at Houston and other points in the Southwest continue to increase and bears were encour aged by the Houston estimate of receipts for to-day. The weather in the main was favorable and many bearish crop reports were received. But late in the day some of the shorts were disposed to cover and with more or less new buying in the expectation of a rally most of the loss was recovered. Heavy rains were reported in Texas and bullish crop reports were received from the Southwest telling of serious deterioration of the crop through excessive rains and inof the crop through excessive rains and in-sect damage. That any marked or perma-nent rally will occur in the near future, how-ever, is not generally believed. On the con-trary, the feeling that the market must seek a still lower level of values is about as strong

a still lower level of values is about as strong as ever.

Miller & Co. said: "New low levels were reached for all options to-day, and genuins surprise was felt when 9½ cents for October was cut through without any resistance, that month finally touching 9.48. This dip, however, proved to be the lowest of the day and was followed by a raily of 10 to 12 points, as a natural result of short profit taking. Outside of the covering by shorts there is little evidence of bullish activity. The close finds prices only 3 to 4 down from Saturday, after a decline of 12 to 15 points. Nothing however, has occurred to suggest that the raily is more than a temporary normal reaction. On the contrary, the heavy receipts at Houston and Galveston bring the weight of the new crop more to the front, and threaten the market with a new pressure."

Messrs. Price, Gwathmey, Mitchell, Norden, Allen and Carpenter were sellers. Messre. Allen and Carpenter were sellers. Measrs. Bache, Hubbard, McIntyre and Miller & Co.

ere buyers. Hubbard Bros. & Co. said: "European ad-Hubbard Bros. & Co. said: "European advices were decidedly weaker than anticipated, the decline abroad being due to heavy selling by American houses, together with the promulgation of very large crop estimates in the foreign markets. Pressure was also apparent here from the same sources that have been free sellers during the last week, though it was noticeable that commission houses were not selling on the decline. On the contrary, they were buyers for spinners who on the present basis for the winter deliveries were able to secure a large quantity of cotton. A slow reaction set in when the foreign markets closed and a better market is expected in Liverpool to-morrow, if only a natural reaction. Cop accounts

the foreign markets closed and a better market is expected in Liverpool to-morrow, if only a natural reaction. Crop accounts are generally favorable, though we think there are sections from which we may soon expect to receive complaints of rust and shedding."

Cotton on the spot was unchanged. Middling, 10.60c., against 10.55c, last year; New Orleans and Gulf, 10.85c., against 10.80c. Delivered on contracts 900 bales. The Southern spot markets were ½ to 3-16c; lower. Middling: Galveston, 10 3-16c;; New Orleans, 10 5-16c; Mobile, 9½c; Savannah, 10½c; Augusta, 10½c. The movement was as follows:

JAMES J. HILL BACK IN TOWN

ORE DEAL" WILL BE ANNOUNCED WHEN DEALERS ARE READY.

The Great Northern Is Not Buying Other Railroads or Invading St. Paul Territory-Mr. Hill Is Not Building a Canal Greenland-Business Presperous.

James J. Hill, who has been in the West for several weeks, arrived in the financial district yesterday. Mr. Hill had little to say, but spoke in a conservatively optimistic way regarding the business outlook. He denied that he was purchasing any independent railroads and also said that he was not opposed to the entrance of the Union Pacific into Seattle, but only to the way it was being done.

A despatch from St. Paul stated that Hill interests had acquired control of the Dakota Midland with which to invade St. Paul territory. The despatch also spoke of a three cornered fight between Harriman. Hill and St. Paul interests. Mr. Hill when asked about the despatch said:

"There is no foundation for the report that I have purchased the Dakota Midland. As a matter of fact I do not know where that railroad is. If you hear rumors that the Great Northern or any other road with which I am closely related has purchased such and such a road you can deny them and thus establish a reputation for knowing things in advance. When we desire to enter a new territory we think it the best policy to build our own lines. I'm not building any canal to Greenland, either not yet."

Asked if it was true that he intended to invade St. Paul territory, Mr. Hill contented

himself with one word, "Bosh." "The Northwest is very prosperous and crops are large," he said in reply to a question about conditions in the West. "Business conditions throughout the country generally are prosperous. There is not so generally are prosperous. There is not so much agricultural territory left for development in the United States and consequently population is becoming more concentrated. This is helping the railroads to show better results. The steel trade is exceptionally prosperous. This is due partly to the destruction of our forests, since the people must find some substitute for wood."

Mr. Hill would make no comment whatever on the plan involving the lease of the Hill ore lands to the United States Steel Corporation and referred to it as "that ore deal." He said that an announcement would be made when the people directly interested were ready to make one.

BOARDMAN CAN'T GET HIS BOOKS. Accuses Detectives of Larceny, but Will

Probably Not Press the Charge. John A. Boardman of Philadelphia, who admits that he controls the four brokerage shops which were raided by Detective Sergeant Barney McConville and a squad of detectives last Friday, was in the Tombs police court yesterday afternoon to back up the effort of Franklin Bien, his counsel, to get back the firm's books. McConville was in court on a summons secured by Bien, who insisted that McConville was guilty of larceny.

Boardman made out a formal complaint of larceny, and Assistant District Attorney Garvan appeared for McConville. Mr. Bien immediately protested, saying that the District Attorney should be prosecuting

instead of defending.

Magistrate Breen ruled that Mr. Garvan had a right to appear for McConville, which led Mr. Bien to forget the laroeny charge and remark:
"The District Attorney is doing us a great

injustice by refusing us a chance to look at our books. How does he expect we are at our books. How does he expect we are
to do business? The loss of all our records
might have seriously embarrassed us if our
patrons hadn't great faith in our integrity.
As it is, when our customers come in and
say we owe them money we have to pay
it without knowing whether they are justly
artitled to it on the ""

entitled to it or not."

Mr. Garvan said he thought he could arrange to allow the Boardman firm to get at its books after he had looked them over himself. Mr. Bien seemed satisfied the said of the s with that arrangement have the larceny charge tabled until this morning.

IRON AND STEEL.

Strong Market for All Grades of Pig Iron -Intense Activity in Finished Steel.

All pig iron selling agencies report strong markets and sales for large amounts to carry consumers through the year, and in many cases well into the coming year. The demand for spot iron is so large and there is so little of it that a number of furnaces have been able to dispose of considerable "off" iron which had been going a-begging for a long time. For Southern iron, prices are ruling between \$15 and \$15.50 for No. 2 at Birmingham. Northern foundry making iron is fetching \$17.75 to \$18 and basic is \$17.50 to \$17.75, valley furnaces. As most of the important foundry iron consumers in this market view the situation, there is in sight a shortage of most grades of iron fo requirements through this year. The principal consumers have placed their orders. main strength of the buying movement is among the smaller consumers. Agents for British iron makers report booking a few orders for metal to come from Middlesbrough Old material is firmer. Scrap for steel plants is in large request by interior mills. Prices are averaging 50 cents a ton over last week's quotations.

Coke is strong at \$3.25 to \$3.50 for the best grades of 72 hour foundry at Connellsville; urnace coke is \$2.75@\$2.90. Demands for Northern and Southern coke are running fully up to the productive capacities of Northern and Southern ovens. A number of important consumers predict higher prices

within a few days. In the steel trades there is intense activity for finished materials. One corporation re-ports that orders are coming in at the rate of \$5,000 tons a day and that more foreign business is offering than can be booked under the limitations set forth as to deliveries. In the home markets buyers are calling for much larger quantities of material than they placed in the orders booked during August of last year. The machinery, locomotive, mining and electrical apparatus trades buyers are increasing their requirements under specifications for deliveries in 1907. For tin plate the demands are much larger than is usual at this time of the year. Associated and independent mills report remarkably good sales, more especially in the best grades of products. The market for standar rails and track material is quiet. Most roads are covered for requirements in specifications recently placed for delivery in 1907.

FINANCIAL NOTES.

The statement of the Bankers Trust Company, as reported to the State Banking Department under date of August 6, shows deposits of \$25,528,722, a gain of over \$4,300,000 in this item since the last report published on May 18. Its undivided profits likewise show an increase, during the same period, of about \$50,000, now standing at \$655,661.

Sing Sing for Bink Teller Frost.

Edward H. Frost, the assistant paying teller of the National Park Bank, who stole about \$6,000, was sentenced by Judge Rosalsky in General Sessions yesterday to not more than four years and not less than two years in Sing Sing. A number of persons intercoded for Frost, who was a member of the Seventy-first Regiment for ten years and a choir singer. Judge Rosalsky said that Frost, who had worked himself up to a \$2,800 job in the bank, deserved little sympathy. He has a wife and two children.

Swift & Company's sales of fresh beef in New York city for the week ending Saturday, Aug. U. averaged 7.22 cents per pound.—Ads.

"UNCLE JONTY" SMITH DEAD. Famous for Many Years for His Shore

MONMOUTH PARK, N. J., Aug. 13 .- In his quaint old home where he had lived for forty years lies the body of Jonathan Smith, the pioneer oysterman and originator of shore dinners along the Shrewsbury River. "Uncle Jonty," as he was known by thousands of people who have enjoyed his dinners, was around the place on Saturday and took his usual three mile walk. Yesterday he broke down and died late in the

Uncle Jenty had numbered among his Uncle Jenty had numbered among his shore dinner patrons many noted people in their day. Wheeler H. Peckham and Henry Chanfrau, the actor, were among the list. Scores of clubs had their outings annually at the Point. Smith's resort on the Point, oppositie Monmouth Park, was a popular place when racing was in full blast. The old man dug his own clams, tonged his oysters and caught the eels, fish and crabs that went to make up a shore dinner.

dinner.
While his gueste would eat he would get out his fiddle and play the "Arkansaw Traveller" and "Down Broadway."
He was twice married, was a widower, and leaves four children, three sons and a daughter.

JUDGE FITZGERALD EXAMINED.

Purges Himself of Contempt by Obeying Justice Dickey's Order. Judge Thomas W. Fitzgerald of the Court of Special Sessions, Brooklyn, purged him-

self of the charge of contempt of court yesterday by appearing before Justice Dickey at Special Term of the Supreme Court and submitting to an examination as to his ability to pay his debts.

He made a statement to the Court in which he said all the proceedings were based on a misunderstanding.

The examination in connection with a money judgment obtained by George B. Fountain for certain law books furnished to Fitzgerald was held in Part III. of the Supreme Court, but the nature of the examination could not be learned from either side.

side.

As Judge Fitzgerald was leaving the court house he was served with papers from the Corporation Counsel's office ordering him to pay \$70 taxes on property held by him at Port Richmond, Staten Island.

SHOOTS HIS ENEMY DEAD. Abine Andia Settles Quarrel With a Fellow Longshoreman.

Anton Connetti, 85 years old, of 236 Van Brunt street, and Abino Andia, 26 years old, of 41 Sackett street, longshoremen, got into a dispute yesterday afternoon while at work at the foot of Sackett street, Brooklyn. They came to blows, but were quickly separated by their fellow workmen and when they were seen to walk off arm in arm it was supposed that the trouble between them had been settled.

them had been settled.
On reaching the corner of Conover and Pioneer streets the quarrel was renewed and Andia drew a revolver and fired at Connetti at short range. The bullet struck Connetti in the right eye and entering the head killed him instantly. Andia was arrested.

DIVORCE WITHOUT ALIMONY. Mrs. Sadle Baron Moses Gets Her Freedom

With No Cash Compensation. Supreme Court Justice Giegerich signed yesterday a decree granting to Sadie Baron Moses a divorce from Darius V. Moses of 53 West Seventy-second street. The divorce suit was tried before Eugene A. Philbin as referee and all the papers had been sealed. There is no provision for alimony, as Mrs. Moses is said to be well to do in her own

right.

Mrs. Moses is a daughter of Bernard
Baron, an Englishman, and it was while
she was across the ocean visiting her father
that the incidents happened which caused her on her return to sue for a divorce.

Justice Heisley Discharged.

Justice Wilbur Heisley of the New Jersey Circuit Court, who was arrested on Vanderbilt avenue, Stapleton, Staten Island, on Sunday by Motorcycle Policeman Reilly on a charge of running his automobile at a rate of twenty-five miles an hour, had this afternoon a private hearing before Magistrate Marsh and was discharged. The defendant told Magistrate Marsh that he and some friends who were on their way from Long Branch, where he lives, to New York, had that he did not think his machine was making more than fifteen miles an hour when the arrest was made, but he was not positive about it

Fooled With \$850,000 Painting Contract

Story. Michael C. Miller, 26 years old, of 366 Lewis avenue, Brooklyn, was held in \$1,500 hail in the Tombs police court vestorday. The police said he had confessed that he had swindled Theodore Saunders, a paint dealer of 150 Nassau street, out of \$500 by promising to throw an \$850,000 contract for painting State buildings to Saunders "through my personal friend, Senator McCarren." Miller says he lost the money Mitchell to Discuss Walsh Roads With Morgan and Hill Here.

CHICAGO, Aug. 18.-John J. Mitchell will leave to-morrow for New York, where on Wednesday he will confer with James J. Hill and J. Pierpont Morgan in regard to the Walsh railroad properties.

Mr. Mitchell will represent the Chicago Clearing House committee, while Mr. Hill and Mr. Morgan will represent the Chicago Terminal Transfer Company, by means of which the Walsh roads seek entrance into Chicago.

Rudolf Heliman Drowned.

LONG BEACH, L. I., Aug. 18.-Rudo'f Heilman of 441 Clermont avenue, Brooklyn, was drowned at Point Lookout beach vesterday afternoon. He was president of the Heilman Company, interior decorators, and a large stockholder and director and former vice-president of the Nassau Cottage and Realty Company. He was carried away by the tide while bathing. Mr. Heilman was 45 years old.

Senttle Causes Death of Peter A. Skelly. Peter A. Skelly, who lived in Kensington walk, Coney Island, died yesterday at the the result of injuries received in a quarrel with Thomas C. Hannan, one of his neighbors, on August 5. In a scuffle Skelly's leg was broken. Blood poisoning set in a few days ago. Hannan is under arrest without bail. Kings County Hospital of blood poisoning,

Movements of Naval Vessels. WASHINGTON, Aug. 13.-The monitor

Arkansas and the collier Nero have arrived at New London, the battleships New Jersey at New London, the battleships New Jersey and Rhode Island at Newport, the collier Saturn at Mare Island, the cruiser Yankton at Rockport, the cruiser Cincinnati at Chefoo, the cruiser Chicago at Bremerton, the cruiser Mayflower at Monte Cristi, the gunboat Sylph at Oyster Bay and the tug Choctaw and the torpedo boat Stockton at Norfolk.

folk.
